A Compilation of Baseball's Relatives
2018- End of Season
Active Players

About the Family Ties List

Who's included in the list

- Active major league and minor league players in 2018 who have a relative currently or formerly in professional baseball, or was drafted by an MLB organization
- In addition to Major League affiliated teams, Mexican League, and Independent League players are included
- The list was prepared after the completion of the 2018 regular season, so that full-season rosters were considered.

Who's not included in the list

- Former major league and minor league players who had relatives in professional baseball
- Current professional players whose relatives have only played college baseball. There is another Family Ties list for that category.

Other notes about the contents of the list

- Current major leaguers in 2018 are in green-colored font.
- Former major leaguers prior to the 2018 season are in red-colored font.
- Players in black font have not appeared in the major leagues.
- For each active player, their 2018 major league or minor league organization is displayed.
- For each active player, there are columns for 2018 MLB Appearance and 2018 MiLB Appearance. Y = Yes indicates which levels the player appeared in.
- When an asterisk appears with the 2018 MLB Appearance indicator (Y = Yes), it denotes the player made his major league debut in 2018.
- Relative's Last Org and Relative's Last Year columns refer to playing careers only. They include Minor League, Independent League, or Mexican League seasons, if in fact the player did not finish his career as a major leaguer.
- In some cases, a Relative had a role as a Non-Player, in which case the Non-Player's role, level and organization are also shown. Non players refer to managers, coaches, scouts, owners, executives, umpires, broadcasters, front office, and other.
- When an asterisk appears with Relative's Last Year as Player, it indicates the MLB draft year of the player but he did not actually sign with the organization that year.
- The list is available in alphabetical order of the active players, as well as the players' current organization.

Errors and Omissions

While it is the intent to make this list comprehensive, there are most assuredly some undiscovered player relationships.
